Potassium Iodide (KI) Permission Slip

I have received, read, and understand the fact sheets on Potassium Iodide (KI) and understand that in an event of a nuclear release my child may be given KI, subject to my permission.

Please be advised that people with the following conditions cannot take the potassium Iodide (KI) pills:

- **Those allergic to Iodine; it is found in table salt or in shellfish such as shrimp, crabs, lobsters and others.**
- **Those who have Dermatitis Herpetiformis - a serious skin condition.**
- **Those who have Hypocomplementemic Vasculitis – a rare autoimmune disease**
- **Those taking medicines for any thyroid related problems such as thyroid hormones and antithyroid.**
- **Those with other serious health conditions should consult with their physician before taking a KI Pill.**

If you should have any concern regarding the emergency use of KI or questions on your child's health and the use of KI, please discuss this with your child's doctor.

- ☐ **I do** want my child to be given Potassium Iodide (KI) in the event of a radiological emergency only when recommended by County and/or State Health officials.
- ☐ **I do not** want my child to be given Potassium Iodide (KI).
- ☐ **Do not** give Potassium Iodide (KI) to my child because he/she is allergic to iodine or has a medical contraindication.

Child's Name: _____ Grade: _____

Parent/Guardian Signature: _____

Date: _____
